Principal’s foreword

Introduction

Sunshine Beach SS built in 1982, has a strong community reputation for delivering quality education to our learners. Steeped in this proud tradition learners continue to demonstrate improvement.

Sunshine Beach has a highly skilled and motivated staff that is focused on supporting each and every student to reach their very highest potential.

The school enrolment comprises 810 learners who derive from a broad socio-economic range. Our parents are supportive of the school and are generally involved in their child’s education.

As an accredited international school, the Sunshine Beach community frequently embraces a range of young people from different cultures.

School facilities have seen an upgrade over the last three years with general repairs, carpets, vinyl and wireless infrastructure being installed. The school hall and a refurbished library provide additional opportunities for our learners to further participate in an increased range of extra-curricular activities provided by dedicated school staff.

Sunshine Beach State School has a firmly established reputation for providing a positive and successful educational experience to our learners. This Annual Report is a summary of our achievements and successes for the 2011 school year.

School progress towards its goals in 2011

In 2011 we continued with our school wide implementation of the Australian Curriculum. As a National trial school this was our second year of implementation. In response to our students’ learning needs there has been a focus on the explicit teaching of spelling, grammar and punctuation. To support teachers an explicit curriculum in these areas has been developed and implemented. As a consequence, the 2011 NAPLAN results in Writing, Spelling and Grammar and Punctuation have seen improvement.

In 2011 the staff was provided with additional opportunities to refine their knowledge and skills in teaching higher order thinking strategies. Due to our focus on extending the more able learner, the number of students identified in the upper two NAPLAN bands has seen significant increase with eleven areas from fifteen potential NAPLAN scores indicating improvement.

Teachers worked with key curriculum staff to develop term overviews for Mathematics that supported the teaching program. The ongoing emphasis on improving student enjoyment in Mathematics was supported through the implementation of fun but challenging Maths Investigations.
Our school at a glance

Future outlook

Continuing ACARA implementation for Maths, English and Science

ENGLISH
To ensure that reading comprehension strategies are taught explicitly throughout school using agreed model
1. Embedding comprehension strategies into unit planning and classroom pedagogical practice
2. Developing performance plans to incorporate available staff development processes and resources

Spelling/Writing
Application of spelling knowledge into daily writing
Spelling, punctuation and grammar indicators to be added to criteria sheets and in the learning sequence during the unit writing process
Develop consistent editing coding system to be used throughout the school
Conferencing and feedback to learners regarding writing
Use of teacher student knowledge and data to inform teaching practices

SCIENCE
Refine school overview of National Curriculum incorporating C2C units
Build teacher understanding and confidence of the content and implementation of C2C lesson plans and units
Focus on excellence in pedagogical practice required to implement the C2C units for quality teaching outcomes
Support teachers to implement embedded technologies within C2C science units
Strengthen alignment of teaching and the assessment task through Guide to Making Judgements Rubric for each unit of work
Continue to refine moderation processes for consistency of approach

MATHEMATICS
1. Assessment tasks to be refined
2. Extension work to be provided for students in upper two bands
3. Building teacher confidence in teaching maths- own understandings- training needs analysis, skilling sessions
4. Provide opportunities for teachers to share and learn from each other.
5. School program- review School scope and sequence and alignment to National Curriculum
School Profile

Characteristics of the student body: Sunshine Beach fosters a culture of excellence where all students are viewed as capable, competent learners. We recognise that our students come to us with their own individual, unique needs and backgrounds. We celebrate diversity created by having students enrolled from a variety of cultures and countries.

Sunshine Beach recognises the significance of embedding Indigenous perspectives within our curriculum and school culture to positively influence the educational outcomes of our Indigenous students. A small number of indigenous students are included in our school's enrolment.

We aim to provide comprehensive and responsive support programs, through an inclusive, coordinated whole school approach, in order to maximise learning outcomes for students with disabilities. Our Special Education Program currently caters for 11 students from Prep – Year 7.

Two highly skilled Learning Support teachers lead various intervention programs for students with learning difficulties across our school. They possess a deep knowledge of current research and relate this to their intervention programs.

We have a focus on health, and learners are encouraged to be fit and healthy citizens. Associated with this is our Travel Smart program with learners encouraged to walk, scooter or ride to school or when not possible, bus.

Sunshine learners are a credit to their community. We have a commitment to encouraging learners to be aspiring towards self-management.

Our school at a glance

Curriculum offerings

Our distinctive curriculum offerings at Sunshine Beach we have adopted an individualised approach to curriculum. Considering each learner’s background, ability, learning styles, rate of learning and personality-profile assists us in determining how each learner learns. We can then better match the curriculum to the learner, rather than expecting the learner to conform to a pre-determined curriculum. High expectations combined with this individualised approach are keys to our success.

Extra curricula activities

Sunshine Beach is fortunate to have a dedicated staff willing to commit time and effort to enhancing the extra-curricular opportunities for our learners. Extra-curricular activities vary from term to term reflecting the needs of the cohort of learners, resources and staff available.

The following are examples of typical extracurricular activities:

- school mathematics Tournament Teams
- extensive sports programs – including specific activities to participate in community events
- school camping program & excursions
- Year 7 leadership camp
- social skills
- surfing competitions
- choir
- instrumental music
- strings program
- gardening / permaculture garden
- cooking
- chess club
- art & craft club
- drama & speech club
- book club & writing club
- after school sporting activities

How Information and Communication Technologies are used to assist learning

In 2011 there was an ongoing focus on our staff achieving the ICT Certificate. Our classrooms have digital projectors installed and there is an increased use of this resource as teachers have designed and implemented virtual classrooms throughout the year. As our staff plan their work units efforts are made to embed the meaningful use of the digital pedagogies.

The installation of a full wireless network was completed in 2011. A bank of 30 laptops was purchased and Year 6 and Year 7 students are able to access 1:1 computer time. Significant expenditure also occurred to purchase equipment to support the introduction of a Robotics program to encourage learner participation in the ICTs.
Social climate

We believe optimum learning occurs when learners are happy and self-managed and when they don’t need others to help them manage their behaviour appropriately. Our aim is to create the conditions for each learner to move towards responsible self-management. Two of our desired outcomes for learners when they leave us, are for them to be happy, confident self-managed individuals and socially responsible citizens.

At Sunshine Beach State School we all, staff and learners alike, take responsibility for making our school ‘a good place to be’ and feedback from our learners indicates this is how they perceive our school.

Further details, including a copy of our school’s Responsible Behaviour Plan can be found on this website.

Parent, student and teacher satisfaction with the school

In 2011 Sunshine Beach maintained a high level of satisfaction with parents and students. Staff morale improved for the 2011 school year.

Involving parents in their child’s education

Parents are seen as equal partners in their child’s education. There is significant parent support for school homework programs that support the individualised approach for learning that occurs in our school. Sunshine Beach has a very active P&C who make valuable contributions in a variety of ways to support the school, the children and the staff. Many parents/carers and staff attend the monthly P&C meeting where discussions are held regarding school progress. Many parents/carers participate as volunteers in classrooms, tuckshop or even within our permaculture gardening group.

There is a Parent/Carer Network group that actively supports the arrival of new families to our school.

The significant parent/carer participation in the many school community events is reflective of the sense of community that exists at Sunshine Beach.
Reducing the school’s environmental footprint

Data is sourced from school's annual utilities return and is reliant on the accuracy of these returns.

In 2011 our school's Permaculture gardening group continued their fine work with a range of strategies to support learning in this critical area. These strategies included the recycling of vegetable waste from the tuckshop and classrooms for use in our new worm farm.

There has been a 35% reduction in water usage when compared to the previous year.

**Expenditure on and teacher participation in professional development**

The total funds expended on teacher professional development in 2011 was $106,566.

The major professional development initiatives are as follows:

* Provision of time for Year level teams to plan, share and learn from each other.
* Provision of quality professional development by external consultants in Higher Order Thinking

The proportion of the teaching staff involved in professional development activities during 2011 was 66%.

**Average staff attendance**

For permanent and temporary staff and school leaders, the staff attendance rate was 96% in 2011.

**Proportion of staff retained from the previous school year**

From the end of the previous school year, 91% of staff was retained by the school for the entire 2011 school year.

**School income broken down by funding source**

School income broken down by funding source is available via the My School website at [http://www.myschool.edu.au/](http://www.myschool.edu.au/).

To access our income details, click on the My School link above. You will then be taken to the My School website with the following 'Find a school' text box.

Where it says ‘Search by school name’, type in the name of the school you wish to view, and select ‘GO’. Read and follow the instructions on the next screen; you will be asked to accept the Terms of Use and Privacy Policy before being given access to the school’s My School entry web page.

School financial information is available by selecting ‘School finances’ in the menu box in the top left corner of the school’s entry web page. If you are unable to access the internet, please contact the school for a paper copy of income by funding source.

Student Attendance Distribution

The proportions of students by attendance range.

![Attendance graph]

Description of how non-attendance is managed by the school

Non-attendance is managed in state schools in line with the DET policies, SMS-PR-029: Managing Student Absences and SMS-PR-036: Roll Marking in State Schools, which outline processes for managing and recording student attendance and absenteeism.

Parents/carers are requested to advise the office by phone if their child is absent. Upon return to school a written note should be provided outlining the reason for absence.

For absences greater than two days the class teacher will notify the office and a phone call will be arranged to ascertain the reason for absence.

Rolls are marked twice a day. This occurs at 9:00am and 1:30pm.
National Assessment Program – Literacy and Numeracy (NAPLAN) results – our reading, writing, spelling, grammar and punctuation, and numeracy results for the Years 3, 5, 7 and 9.

Our reading, writing, spelling, grammar and punctuation, and numeracy results for the Years 3, 5, 7 and 9 are available via the My School website at http://www.myschool.edu.au/.

To access our NAPLAN results, click on the My School link above. You will then be taken to the My School website with the following 'Find a school' text box.

Where it says ‘Search by school name’, type in the name of the school whose NAPLAN results you wish to view, and select <GO>.

Read and follow the instructions on the next screen; you will be asked to accept the Terms of Use and Privacy Policy before being able to access NAPLAN data.

If you are unable to access the internet, please contact the school for a paper copy of our school’s NAPLAN results.
Achievement – Closing the Gap

A range of strategies have been employed in our school’s efforts to support indigenous learners, recognise and celebrate indigenous culture. These strategies include:

- Embedding indigenous perspectives in planning units of work
- The focus on aspects of differentiation for indigenous learners
- The establishment of a bush tucker garden and totem pole story poles and art works by Aboriginal elder.

Our indigenous learners are provided with individualised programs in aspects of literacy and numeracy. Progress is tracked through school monitoring processes.

In 2011 there was not any gap in NAPLAN scores between the performance of our indigenous learners and non-indigenous.
